About

Sawyer's Fine Flooring Ltd. is Manitoba's largest manufacturer of custom flooring items such as custom vent covers, stair nosings and transitions.

Established in 2017, and currently operating in a new 5,500 sq. ft. plant, we have taken pride in delivering products of top craftsmanship and providing outstanding customer service.

In addition to serving customers throughout the province, Sawyer's has shipped its products to other Canadian Provinces and exported them to the United States.

Our custom vent covers and stair nosings are manufactured from the customers' flooring materials for a perfect match with the flooring of their choice. Some of our products are developed and made exclusively by Sawyer's.

We use advanced CNC equipment and high-quality materials to seamlessly match vent covers and stair nosings for even the most complex flooring projects. The products are hand crafted and finished to perfection every time.

We continuously expand the range of products, innovate and improve to finetune our production to meet and exceed our customers' expectations.

We look forward to working with you on all of your flooring projects!

Contents
